Medicare Community Resource Support

Enhanced Supplemental Benefit Options

A telephone based program (supported by Social Workers) used to identify needs, leverage resources and coordinate services. Assists members and providers by providing specific medical or health-related information/education and leveraging local, community-based services and other support programs available in their specific market/region.

The goal is to provide education and resources to ameliorate the issues associated with the health conditions the member is experiencing or other factors that are creating barriers to their healthcare, economic and social needs.

Will offer:

- Research into available community resources
- Answers to questions about bridging the gap between healthcare benefits and non-benefit healthcare needs
- Education on conditions/disease states, and how to access available community supports and services
- Outreach to programs to connect member with information and services

Will Not offer:

- Acceptance of direct calls from members, providers. (Internal groups will contact team via email/electronic means)
- Pre-cert for covered benefits or services
- Health Risk Assessment
- Answers to benefit questions
- Filing of complaints
- Support to beneficiaries who are not members

Anthem-Walmart Program

- **Over the Counter (OTC)**

- The Anthem-Walmart program, launching in January 2019, will enable consumers who are enrolled in Anthem's affiliated Medicare Advantage (MA) plans to use OTC plan allowances to purchase OTC medications and health-related items, such as first aid supplies, support braces, and pain relievers at Walmart's 4,700 stores and on Walmart.com. The new collaboration is expected to improve access to these items while significantly reducing the out-of-pocket costs for those enrolled in Anthem's affiliated MA plans.
